COVID Vaccines for Students

Posted: February 3, 2022

Summary: Seattle Public Schools is offering vaccine clinics for students and staff in February.

COVID-19 Vaccine for Students and Staff

Vaccination is our most important line of defense against the virus and being vaccinated also reduces the loss of vital in-person instruction time at school.

The Center for Disease Control (CDC) recommends COVID-19 vaccination to help protect against COVID-19 and help to prevent severe illness, hospitalization, and death. COVID-19 vaccines are safe, effective, and free.

COVID-19 vaccines are safe and effective. 81% of SPS students have received at least one dose of the COVID vaccine and 74% are fully vaccinated.

Upcoming School-Based Vaccine Clinics

Vaccines provided:

- Pfizer Pediatric COVID-19 vaccine for ages 5-11. First and second doses
- Pfizer COVID-19 vaccine for ages 12+. First and second doses
- Pfizer COVID-19 vaccine boosters for 12+ students and adults
  - Youth are eligible for a booster five (5) months after the Pfizer COVID-19 Vaccine

All students under 18 must be accompanied by a parent or guardian to provide consent. If your student is coming for a 2nd dose or a booster vaccine, please bring their vaccination card.

Dates: Saturday, February 5, and Saturday, February 26
Time: 9 a.m. – 1 p.m.
Location: Broadview-Thomson K-8 School, 13052 Greenwood Ave. N, Seattle, WA 98133

Pre-registration is encouraged; there is also capacity for walk-ins.
