Friendly Reminder: Sound Transit Light Rail Update

The next two-week period of construction on the southbound platform at Columbia City will happen Aug. 19 - Sept. 1.

One side of the tracks through Seattle's Rainier Valley will close for two weeks to enable this work.

The work involves removing cracked and failing platform tiles and rebuilding a concrete base to ensure new tiles offer good durability, eliminating tripping hazards and safety risks from cracking tiles.

The bulk of the work is at the edge of the platform. For the safety of the workers, the tracks nearest that section of the platform have to be closed.

<tbody>
<tr>
<td><strong>Friday Aug. 19 - Thursday Sept. 1</strong></td>
<td>1 Line train frequencies will be reduced to 20 minutes between Angle Lake and Stadium stations. The work requires the closure of one track at Columbia City Station, forcing all trains to use a single track between Mount Baker and Othello stations. Trains will run approximately every 10 minutes between Northgate and Stadium stations from 6 a.m. to 10 p.m. During these hours every other train heading south from Northgate will turn back at Stadium Station. The trains exterior signs will say if they are headed to SeaTac/Angle Lake or Stadium. From 5 - 6 a.m. and from 10 p.m. - 1 a.m. trains will run every 20 minutes systemwide. No southbound trains will turn back at Stadium Station.</td>
