April 15 update

As of April 15, all people in Washington age 16 and older are eligible for COVID-19 vaccination.

To search for open appointments, use the WA Vaccine Locator (below) or check your eligibility to get vaccinated. Information below.

April 15 update

Use of the J&J vaccine has been paused. The CDC reviews reports of a rare, severe type of blood clot in people who received the J&J vaccine. As of April 12, 7 million people in Washington State have been vaccinated with the J&J vaccine.

If you have an upcoming J&J vaccine appointment, you may be rescheduled or you may be offered a different vaccine. Contact your provider for all changes. All appointments at Virginia Mason, a high volume vaccine provider, have been canceled.

If you received the J&J vaccine more than a month ago, you are very safe. If you experienced side effects, please note they were in the last three weeks. Your risk of a blood clot is still very low. However, if you develop severe headache, abdominal pain, leg pain, or uncontrolled, contact your healthcare provider or go to urgent care or an Emergency Room.

The Puyallup and Renton vaccines will continue to be used and are not affected by the CDC review. Safety is the highest priority for all COVID-19 vaccines. We will continue to provide updates as we learn more.

Phone assistance available

If you need language interpretation or online help, the following hotlines are available. Please say your preferred language when connected:

- WA State COVID-19 Assistance Hotline: 206-461-9012 or 1-800-565-0123 (Press 1), 9 a.m.-12 p.m. (Monday-Friday)
- [King County COVID-19 Call Center](https://www.wa.gov/public-health/health-locations-by-county): 206-461-9002, 9 a.m.-7 p.m.

For help from the state's relay service, dial 7-1-1 or 1-800-833-4868. For tactile interpretation, contact [7-1-1 Access Line](https://www.wa.gov/public-health/health-locations-by-county).

How to get vaccinated

Vaccinations are available regardless of insurance, citizenship, or immigration status. You will not be billed for vaccination. The vaccine will be covered by Medicare, Medicaid and most private insurance, and the cost of vaccination will be covered for people who are uninsured.

Vaccine supplies and appointments are currently limited. Getting vaccinated will be easier as providers receive more doses and high-volume vaccine sites open.

Schedule an appointment

You can schedule at select vaccine sites below. You will need to bring:

- Identification with name and address
- Parental/guardian consent or legal emancipation
- Insurance card (if applicable)

You can schedule directly at one of these sites. All King County sites are ADA accessible and have language and ASL interpretation available.

For Veterans

Veterans Affairs (VA) Puget Sound is offering vaccines to veterans at its clinics in Silverlake, Seattle, and Kent. You can view the [schedules](https://www.va.gov/) for upcoming clinics. To self-schedule, please call 206-477-3977. For assistance, please call 888-856-5816.

What to bring and how to get to your vaccine appointment

You will need to bring:

- Identification with name and address
- Parental/guardian consent or legal emancipation
- Insurance card (if applicable)

Wear short sleeves or loose-fitting sleeves that are easy to roll up so that you can get vaccinated in your upper arm.

Call your doctor’s office or health care provider to see if they have available vaccination appointments.

To search for open appointments, use the WA Vaccine Locator (below) or check your eligibility to get vaccinated. Information below.
